

COMPANY PROFILE · 2026

Technology built for better business.

Practical digital systems, dependable infrastructure and locally supported technology for organisations ready to grow.

A technology partner built around how you work.

Salticon Limited helps organisations build a stronger digital foundation: secure IT infrastructure, connected business software and automation that removes friction from everyday operations.

We combine practical technical expertise with an understanding of local operating realities. From a single office to multi-branch operations, our team plans, deploys, integrates and supports technology that works reliably at scale.

“From infrastructure to intelligent business systems, we make technology clear, connected and useful.”

Business software

Cloud & infrastructure

Automation

Security

Ongoing support

The technical foundation for confident growth.

We deploy, manage and support the systems that keep your people, locations and customers connected.

01 / CLOUD

Cloud, DevOps & Infrastructure

Cloud migration, hosting, CI/CD, containerisation, auto-scaling and disaster recovery designed for dependable growth.

02 / CORE IT

Server & Data Centre Management

Windows and Linux configuration, data-centre design, redundancy planning, monitoring and hands-on support.

03 / CONNECTIVITY

Networks & Structured Cabling

LAN, WAN and Wi-Fi deployment, fibre and structured cabling, testing, labelling and documentation.

04 / SECURITY

Cybersecurity, CCTV & Access Control

Firewalls, security assessments, threat protection, surveillance, access control and remote monitoring.

05 / PROCUREMENT

Hardware & IT Procurement

Computers, peripherals and networking equipment, including installation, warranty support and bulk orders.

06 / ENABLEMENT

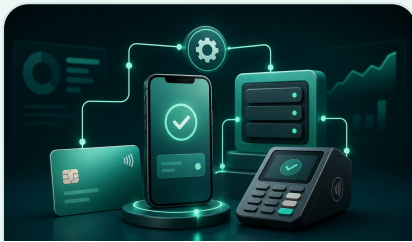

Training & Managed Support

Technical workshops, onboarding, documentation and responsive support that keeps teams productive.

OUR PRODUCTS

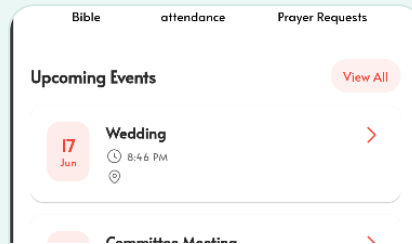

Ready-to-use platforms for everyday work.

Purpose-built systems that help organisations collect payments, manage people, serve customers, communicate and grow.

Payments Integration

Connect websites and systems to M-Pesa, cards, banks and other payment channels.

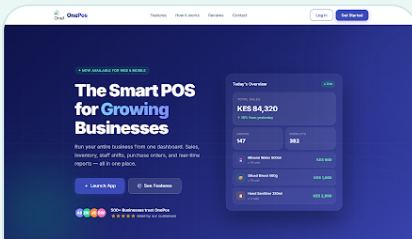

Church Management

Member records, giving, communication, events and reporting in one digital ministry platform.

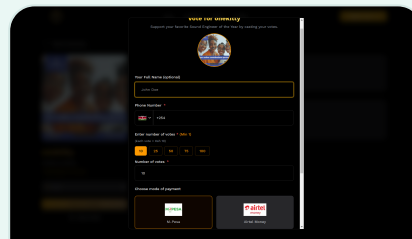

OneKitty

Africa-wide group contributions platform for collecting, tracking and managing shared funds.

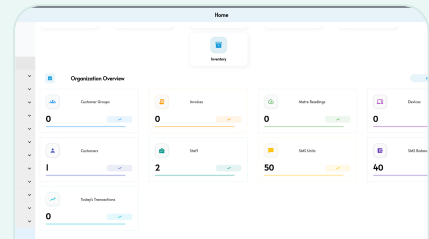

Point of Sale

Practical retail operations, sales management and customer service tools.

OneVote

Secure, accessible digital voting and election management for organisations.

OneBiller & Bulk SMS

Billing, payment communications and bulk messaging that keep customers informed.

We also deliver member-organisation systems for SACCOs, microfinance institutions, welfare groups and unions — with the workflows, records and reporting each model requires.

Connected systems for better business operations.

ERP & Business Process Automation

Bring finance, HR, inventory and operations into one connected system. We configure the workflows, approvals, dashboards, reporting and integrations that give leaders a clear, real-time view of the business.

Customer & Workforce Operations Systems

Improve both service flow and employee visibility through queue management and biometric attendance solutions. We supply and configure ticketing kiosks, displays, counter tools, biometric terminals, RFID devices, reporting and payroll or HR integrations.

Digital Marketing & Customer Automation

Build stronger digital touchpoints with websites, campaigns, messaging, customer communication and practical automation aligned to your growth goals.

01

Understand

We start with your workflows, challenges, users and priorities.

02

Design & deploy

We recommend the right approach, configure it carefully and launch with your team.

03

Support & improve

We remain available as your needs evolve, keeping your systems useful and dependable.

LET'S BUILD WHAT'S NEXT

Make technology a stronger part of **your business.**

Whether you are deploying infrastructure, improving operations or launching a new digital platform, Salticon is ready to help.
